

LED Rose Garden at Dongdaemun Design Plaza (DDP) in Seoul

The LED Rose Garden at Dongdaemun Design Plaza (DDP) has transformed an open space into a beautiful night garden. Popular among couples, this is also a great place for nightscape photography. When night falls, a total of 25,550 LED roses light up, with impressive skyscrapers serving as the backdrop. The display began on National Liberation Day in 2015 as a celebration of the nation's 70th year of independence. The number of roses on display corresponds to the number of days since liberation: 365 days multiplied by 70 years is equivalent to 25,550 roses (Source: *Korea Tourism Organization*).
